

## **What I Know Flozone Can Do for You**

- **Eliminate all HVAC chemical handling and storage on site**
- **Eliminate all HVAC condenser water chemicals (cooling tower chemicals)**
- **Eliminate all chemicals in cooling tower discharge water**
- **Make cooling tower discharge water usable for irrigation and other uses**
- **Add LEED and USGBC benefits and points to facilities managed**
- **Eliminate Legionella contamination risk in cooling tower water**
- **Eliminate cleaning of chillers and cooling towers for scale & biological accumulation (no tube brushings)**
- **Add to HVAC equipment life (no damaging chemicals in mgt or cleaning & no harsh cleaning)**
- **Provide 24/7 Remote Monitoring/Management of HVAC water with live read on results & verification**
- **Metering of cooling tower make-up and bleed with live read of results (live cycles of concentration)**
- **Live read of actual vs. projected on water/sewer and electrical savings (cumulative savings)**
- **Reduce HVAC water consumption (5% to 35%)**
- **Reduce HVAC sewer discharge (5% to 35%)**
- **Reduce HVAC electrical consumption (7% to 25%)**
